Model 9 DP Pressurized Ion Chamber

Features

- 0 to 50 mSv/h (0 to 5 R/hr) Range with μR/hr Sensitivity
- Sunlight Readable Color Display
- Auto Zeroing & Ranging
- Rechargeable Batteries
- Alarms
- Rate, Integrate & Peak Hold Readouts
- **Data Logging**
- **USB** Connectivity
- Free Firmware Updates through Internet

The Model 9DP pressurized ion chamber meter provides highly sensitive measurements of exposure and exposure rate. It can simultaneously display the exposure rate and integrated value or the highest rate seen by the instrument. The stunning 256-color bit-mapped display provides an optimized presentation of the data and is accompanied with icons informing the user of the active functions and instrument status. All logged data are written in csv format to a plugged-in, industry standard USB thumb drive for convenient retrieval by a PC spreadsheet or database program. Alarms are manifested using color changes on the display and an audio output.

The state-of-the-art technology of the Model 9DP delivers tremendous capability, user friendliness and convenient PC connectivity. The built-in USB port facilitates password-protected access to parameter settings via direct connection to a standard USB keyboard, thus foregoing any need to install PC application software or dealing with operating system compatibility issues.

Radiation Detected: Gamma & X-rays above 25 keV

Beta above 1 MeV

R/hr units: 0 - 500 μR/hr, 0 - 5 mR/hr, 0 - 50 mR/hr, 0 - 500 mR /hr, 0 - 5 R/hr **Detection Range:**

Sv/h units: $0 - 5 \mu \dot{Sv}/h$, $0 - 50 \mu \dot{Sv}/h$, $0 - 500 \mu \dot{Sv}/h$, $0 - 5 m \dot{Sv}/h$, $0 - 50 m \dot{Sv}/h$

Chamber Volume: 230 cm³ (14 in³) volume pressurized to 9 atm (122 psig)

Accuracy: $\pm 10\%$

LCD Display:

Audio Outputs:

8.9 cm (3.5 in.) diagonal; 240 x 320 (H x W) pixels; TFT active matrix; 262,000 colors; 220 cd/m2

Measurement Readouts: Simultaneous display of rate, integrated reading, and highest rate (peak hold)

User Controls: 4 Pushbuttons:

* Instrument On / Off * Peak rate / Integrate mode

* Audio On / Off

* Alarm acknowledge / Meter reset / Clearing integrated dose or peak rate

Auto ranging, Auto zeroing, Auto LCD backlighting Automatic Functions:

Response Time:

5 s in lowest range, 2 s in all other ranges, when measuring from 10% to 90% of final value Alarms: Two levels of radiation alarms available, each are user programmable throughout entire

readout range and set through a PC interface program.

Other alarms include low battery and various detector failures. Built-in unimorph speaker, > 60 dB at 0.6 meters (2 ft.)

An optional audio jack can be installed for connecting to an external headset.

Temperature Range:

-20 to 40 °C (-4 to 104 °F) Eight rechargeable "AA" NiMH batteries, Power:

supplied with wall charger for direct connection to instrument

12 to 30 hours between charges, depending upon use of backlighting Battery Life:

USB Interface: Single USB port, may be used to:

* Connect a USB keyboard

* Connect a USB thumbdrive for storing logged data

* Connect to a PC with the optional interface kit for parameter editing and calibration

Data is stored to detachable USB thumb drive in CSV format for easy retrieval by Data Logging: PC spreadsheet/database programs. Data points include real-time clock generated date and

time with rate, integrated reading, and instrument status. Logging time intervals are set by PC interface program or standard USB keyboard.

Construction: Durable molded plastic with internal metal support

Size: 8.6" H x 4.6" W x 9.6 " L

3.3 lb Weight:

Model 9 DP Pressurized Ion Chamber

Model 9-DP1 Low Pressure Ion Chamber, Non-Hazmat
